

Model Training Appointments

We would like to thank you for giving up your time to be a model for us and have set out below some guidelines for your visit, to avoid any misunderstandings.

1. During the consultation/patch test appointment, we will assess your hair for the service you have booked and should additional time/product/service be required, supplements will be advised. We want these appointments to be as realistic as possible.
2. A training environment is different to a normal salon visit. We cannot guarantee how long you will be in the salon. If you have any time restraints, please let us know before we start on your hair.
3. Please be flexible about your finished result. We will choose models that our stylist needs to work on - where possible we will try and accommodate your wishes, but it is not always possible, and no rectification will be done if you've not received the result discussed – the apprentice has simply not passed their training session.
4. If you have any concerns about anything during the service, then please let the trainer, apprentice or reception know.
5. Lastly, please relax and enjoy your visit. You never know, you may be in the hands of the next Vidal Sassoon!

I understand that I am participating in a training session for a learning hairdresser who may not be qualified and that I may not receive the results that have been discussed at consultation and that Fine to Fabulous Salon will not rectify my hair following the training session if I am unhappy with the result, or if damage has been caused because of the service, or my prior hair condition.

You will be sent this form to read and sign prior to your appointment.
